1919 Bahamas One Pound Color Trial Specimen

28001 **Bahamas** Bahamas Government £1 1919 Pick 7cts Color Trial Specimen.

An absolute Gem of a note. The regal purple color was not used on any Bahamas notes of this period, and not a particularly popular color in tropical climates as it was subject to fading. Nevertheless for this presentation Color Trial Specimen, all intaglio features from the frame to the portrait are executed in this very pleasing shade. The underprint color is also characterized by a sunset-like tint instead of the yellow used on the issued example. A possibly unique example that will certainly entice all collectors. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$5,000-\$7,000

Starting Bid: \$2,500

High Grade Consecutive Serial Numbered Pair

28002 Bahamas Government £1 ND (1953) Pick 15b. Two Consecutive Examples.

A consecutive pair of these always popular notes. Superior embossing and colors are seen on both examples which share the PMG **Gem Uncirculated 66 EPQ** grade. Though the 4 Shillings note was more popular, as it was similar in value to the dollar of the Bahamas's largest trading partner, the United States, £1 and £5 notes were introduced as they were common integer values of the Bahamas Pound. The second signature combination is seen.

From the Feeling Good Collection (Total: 2 notes)

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

Barbados King George VI \$1 Color Trial Specimen

28003 Barbados Government of Barbados \$1 ND (1938-1949) Pick 2cts Color Trial Specimen.

A striking cherry red frame is seen around the portrait of King George VI, with the Seal of Barbados (also featuring an effigy of the King) executed in the same color. This example is the first this cataloger has seen, and a search through recent public sale records show the same - no records of a Color Trial Specimen for this always popular design. Accordingly, this is the only example in the PMG Census. With this most likely being the first time the design has been publicly offered, heated competition can only be expected for this example. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$10,000-\$15,000

Starting Bid: \$5,000

Belgian Congo High Denomination Specimen

28004 **Belgian Congo** Banque du Congo Belge 5000 Francs ND (1950) Pick 19A.

The elusive Belgian Congo example that should not be confused with the later Republic of Congo issue. This highest denomination was never issued, and only known as Specimens. Superior embossing is seen on this modern Bradbury Wilkinson example, with brilliant colors on both sides. This is the sole example in the PMG Census. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$3,000-\$5,000

Starting Bid: \$1,500

Finest Graded in PMG Census

28005 **Belgian Congo** Banque Centrale du Congo Belge et du Ruanda-Urundi 20 Francs 15.4.1954 Pick 26.

A very elusive design as an issued note. Superior embossing is seen on both sides of this always popular design featuring scenes of Belgian Congo. This is also the last date of this note which was only issued for about half a year. PMG **Gem Uncirculated 66 EPQ**.

Estimate: \$3,000-\$5,000

Starting Bid: \$1,500

Sole Finest PMG Graded 1980 One Hundred Dollars

28006 **Belize** Monetary Authority of Belize \$100 1.6.1980 Pick 42.

The elusive Monetary Authority of Belize title is seen on this highest denomination, with the first X1 prefix. This is the sole finest note of this type, with the next finest note only a Choice Uncirculated 64. A superior example. PMG **Superb Gem Uncirculated 68 EPQ**.

From the Feeling Good Collection

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

Finest PMG Graded 1983 One Hundred Dollars

28007 **Belize** Central Bank of Belize \$100 1.11.1983 Pick 50a.

The first X1 prefix is seen on this highest denomination issued under the Central Bank titles. Embossing is heavy as expected on this modern Thomas De La Rue issue, with excellent colors and superior centering. This note is the sole finest example. PMG **Superb Gem Uncirculated 68 EPQ**.

From the Feeling Good Collection

Estimate: \$3,000-\$5,000

Starting Bid: \$1,500

Finest Graded Highest Denomination Color Trial Specimen

28008 **Bermuda** Bermuda Government £5 1947 Pick 17cts Color Trial Specimen.

A very attractive version of the highest denomination of the King George VI. A view of Hamilton Harbor is seen in the left. There were two color versions of the issued note, the earlier type in brown (which was easily confused with the 5 shillings note) and orange. This example using blue intaglio features and yellow underprints, which match that of the £1 note, is nevertheless an appealing example of the design in a new view. This is the sole finest example of all varieties of this King George VI £5 design. PMG **Superb Gem Uncirculated 68 EPQ**.

From the Feeling Good Collection

Estimate: \$5,000-\$7,000

Starting Bid: \$2,500

High Grade 1950 Twenty Dollars Specimen

28009 **British Caribbean Territories** Currency Board \$20 28.11.1950 Pick 5s Specimen.

King George VI is featured on this example with all zero serial numbers and the first date of issue for this design. Embossing is excellent on this wonderful Specimen. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$3,000-\$5,000

Starting Bid: \$1,500

High Grade Color Trial Specimen

28010 British Caribbean Territories Currency Board \$20 ND (1957-64) Pick 11bcts Color Trial Specimen.

A certainly impressive and elusive example. While the issued note used purple for the main intaglio color, this example uses green, which was seen on the issued \$5 note. "Exceptional embossing" as noted on the third party holder and the absence of any mounting or stains indicates this example was made for the highest of recipients as a presentation piece. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

Rare Highest Denomination Issue

28011 British Caribbean Territories Currency Board \$100 1.3.1954 Pick 12b.

The highest denomination of the issue with this example grading PMG **Very Fine 20 Net**. It has been repaired at back top center and also has edge tears. Opportunities to acquire this rare number are sporadic. The last chance within the last eight years was when a PMG VF 30 EPQ example realized over \$34,000 in 2017.

Estimate: \$10,000-\$15,000

Starting Bid: \$5,000

Highest Denomination Color Trial Specimen

28012 British Caribbean Territories Currency Board \$100 ND (1953-63) Pick 12cts Color Trial Specimen.

Do not overlook this example for a \$2 note! This is a Color Trial Specimen of the highest \$100 denomination, executed with blue intaglio features like the contemporary issued \$2 note, though with a deeper blue and different underprint pattern. An elusive denomination in any format. Heavy embossing is seen throughout this presentation example with an all original EPQ designation. PMG **Gem Uncirculated 65 EPQ**.

From the Feeling Good Collection

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

British Honduras 1951 \$10 Finest Graded Example

28013 British Honduras Government of British Honduras \$10 1.6.1951 Pick 27c.

Quite simply, the sole finest graded of this design across all signature varieties and formats. Inks are deeply colored, with embossing especially of the frame heavy and easily seen on the back. Centering is wonderful as expected on this modern Bradbury Wilkinson example. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$6,000-\$8,000

Starting Bid: \$3,000

Fully Issued British North Borneo 1922 \$5

28014 **British North Borneo** British North Borneo Company \$5 1.12.1922 Pick 4b.

A nice mid-grade example in a comment free holder grading PMG **Very Fine 25** and one of the nicer Pick 4b notes that we know about to be available at auction. Its two nearest competitors were offered in 2016. They were a PMG 30 Net that realized \$2,629 with us and a PCGS 20 that realized over \$4,100. The piece in this lot is graded higher than the latter and it should definitely bring more.

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

Sole Finest Example in PMG Census

28015 **Bulgaria** Bulgarian National Bank 5000 Leva 1929 Pick 54a.

A very elusive note as issued due to its highest denomination status, which was convertible to around 1.71 troy ounces of gold. Large amounts of this series featuring King Boris III were assumed to have been destroyed, as the series that followed was issued in 1938 and printed by Giesecke & Devrient when the country was under heavy German influence. This is the sole finest example of only three notes of this variety in the PMG Census. PMG **Gem Uncirculated 66 EPQ**.

From the Feeling Good Collection

Estimate: \$5,000-\$7,000

Starting Bid: \$2,500

Rarely Offered Province of Nova Scotia Proofs

28016 NS-23 Canada Province of Nova Scotia 1.6.1861 Proofs.

Three proofs from different parts of the printing process are included here. The face, which is a full proof of the issued design is printed in black with a green protector. Red serial numbers are printed, and four POCs are seen on the signature lines, PMG **Gem Uncirculated 65 EPQ**. The back is a Progress Proof with just the central design elements of the final design, most importantly, the central vignette of *Saint George Slaying the Dragon*, PMG **Choice Uncirculated 64**, with two POCs. Finally, a Progress Proof of the protector only is seen on the third piece of cardstock. It is printed in black ink only, with two POCs, **PMG Choice Uncirculated 64**. (Total: 3 notes)

From the Feeling Good Collection

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

Archival Set of Early Dominion of Canada Proofs

28017 DC-12 \$1 1897 Proofs and Vignettes.

The logging scene vignette on the 1897 Ace is one of the most iconic designs for Canada. An arched DOMINION OF CANADA crowns the engraving, with the Countess and Earl of Aberdeen flanking each side. Uniface Proofs on cardstock of the front and back are included, graded PMG Superb Gem Unc 67 EPQ and Gem Uncirculated 66 EPQ. Each of the design elements, front, back, and the Countess and Earl are also included in individual vignette form, each on their own piece of card stock. The paper and stock on every item here is bright and attractive, unaffected by age. (Total: 6 items)

From the Feeling Good Collection

Estimate: \$5,000-\$7,500

Starting Bid: \$2,500

Finest PMG Graded 1897 Dominion of Canada Two Dollars Specimen

28018 DC-14cS \$2 1897 Specimen.

An always elusive design featuring fishing and the Prince of Wales, who later became King Edward VII. Colors continue to shine on this well embossed and centered example, deserving every point of its PMG **Superb Gem Uncirculated 67 EPQ** grade. All zero serial numbers and hole cancels are seen. This is the finest graded example of its type in the PMG Census.

From the Feeling Good Collection

Estimate: \$4,000-\$6,000

Starting Bid: \$2,000

Dominion of Canada 1897 \$2 Proofs

28019 DC-14a \$2 1897 Proofs and Vignettes.

A perfect match to the \$1 1897 in the lot before this, we are offering another stunning archival set of proofs for the 1897 \$2. This design featured a perfectly engraved fishing scene and was executed by the American Bank Note Co. location in Ottawa. The front and back designs are printed in black ink on two separate cardstocks. The face has three POCs along the signature line. They are graded PMG **Superb Gem Unc 67 EPQ** and **Gem Uncirculated 66 EPQ** respectively. Included are individual cardstock mounted vignettes of the fishing scene, farming scene from the back design, and Edward Prince of Wales. (Total: 5 items)

From the Feeling Good Collection

Estimate: \$5,000-\$7,500

Starting Bid: \$2,500

Sole Finest PMG Graded 1917 One Dollar

28020 DC-23a-ii \$1 1917.

Superior centering and embossing is seen on this larger Dominion of Canada issue. This example was the only new design to have been introduced during World War II, and the only note of this 1917 series. Princess Patricia, granddaughter of Queen Victoria, is featured on the face with a view of the Houses of Parliament on the back. This is the sole finest of the type in the PMG Census. PMG **Superb Gem Uncirculated 67 EPQ**.

From the Feeling Good Collection

Estimate: \$3,000-\$5,000

Starting Bid: \$1,500

Archival Set of Dominion of Canada 1917 One Dollar

28021 DC-23 \$1 1917 Proof, Vignettes, and News Photo.

This archival set is themed around the vignette of Princess Patricia of Connaught displayed on the Dominion of Canada one dollar banknote. Included is an ABNC Approval Proof along with (3) Front Proofs of the 1917 issue; (2) vignettes of the princess; a vignette of the parliament building which was featured on the back of the note; and a ABNC Archive New Photo of the princess modeling for the note. The vignettes and news photo are cased in holders from PMG and the Front Proofs on cardstock are graded by PMG **Gem Uncirculated 66 EPQ** and **Gem Uncirculated 65 EPQ**. Additional images available online.

From the Feeling Good Collection (Total: 7 items)

Estimate: \$5,000-\$7,500

Starting Bid: \$2,500

High Grade 1923 Dominion of Canada One Dollar

28022 DC-25g \$1 1923.

King George V is featured on this always popular example. The renowned Library of Parliament building is featured on the back. Centering is excellent on this Red Seal example which maintains a light paper wave due to the wet printing process used at the time. This example is two points higher than the finest graded example in the PMG Census, and is expected to drive collector interest. PCGS **Superb Gem New 68PPQ**.

From the Feeling Good Collection

Estimate: \$3,000-\$5,000

Starting Bid: \$1,500

Second Finest Example in PMG Census

28023 BC-4 \$2 1935.

Queen Mary, wife of King George V is featured on this always popular French text note. The blue underprint continues to shine on this all original note with the EPQ designation. Allegorical representations of Mercury and transport are featured on the back. Despite having a print run of 5.3 million notes, these low denomination notes were expected to be circulated heavily, and any examples in Gem condition are very elusive. This example is only one point less than the finest example in the PMG Census. PMG **Gem Uncirculated 65 EPQ**.

Estimate: \$10,000-\$15,000

Starting Bid: \$5,000

1935 Banque Du Canada French Text \$50

28024 BC-14 \$50 1935.

King George VI, who on this note was still Prince Albert, Duke of York, is featured on this outstanding example in French text of the first issue of the Bank of Canada. An allegorical figure of modern inventions is featured on the back. All French notes were printed with the F prefix, which according to a letter from the deputy governor of the Bank of Canada at that time, were subject to mutilation by the English speaking population. This French text version had a run of only 32,500 notes. An amazing, pack fresh example with excellent heavy embossing. PCGS

Choice New 63PPQ.

Estimate: \$30,000-\$50,000

Starting Bid: \$15,000

Trio of Matching Serial Number Devil's Hair Notes

28025 Canada Devil's Hair Notes Serial Numbered 22.

The low, two-digit serial number 22 is seen on this matching trio of notes; the \$20, \$50, and \$100 denominations featuring the dreadful Devil's Hair design. Included are:

BC-33a \$20 1954 PMG **Gem Uncirculated 66 EPQ**,

BC-34a \$50 1954 PMG **Gem Uncirculated 65 EPQ**,

BC-35a \$100 1954 PMG **Gem Uncirculated 66 EPQ**.

The well matched grades all feature the Exceptional Paper Quality descriptor, in this case describing the overall bright white paper, bold printed colors, deep red serial numbers, and noted embossing. (Total: 3 notes)

From the Feeling Good Collection

Estimate: \$5,000-\$7,000

Starting Bid: \$2,500

High Grade \$1000 Devil's Face

28026 BC-36 \$1,000 1954 Devil's Face.

The first A/K prefix is seen on this always elusive early example, featuring a portrait of Queen Elizabeth II which some saw as having a devious face due to pareidolia. These high denomination notes had a remarkably short print run of only 30,000 notes before public outcry forced the modification and re-release of this denomination. The covered bridge in the village of L'Anse-Saint-Jean, Quebec and the Saguenay River fjord are featured on the back of this enticing example from the Landscape series. An excellent note which only has one note finer in the PMG Census. PMG Choice Uncirculated 64.

Estimate: \$25,000-\$35,000

Starting Bid: \$12,500

Consecutive Serial Numbered Pack

28027 BC-52a \$100 1975 Consecutive Pack of 100 Notes. Gem Crisp Uncirculated.

A lovely fresh pack of the largest denomination from the Bank of Canada. These consecutive notes feature the Lawson-Bouey signature combination along with the serial number range of JB3666400 through JB3666499. Superior embossing is seen throughout these examples featuring Sir Robert Borden on the face and the lovely harbor scene of Lunenburg, Nova Scotia on the back. (Total: 100 notes)

Estimate: \$10,000-\$12,000

Starting Bid: \$7,500

Bank of Hamilton Uncut Sheet of \$10 Specimens

28028 **Hamilton, ON- Bank of Hamilton \$10 2.1.1904 Ch. # 345-18-06S Specimen Uncut Sheet of Four. PMG Gem Uncirculated 65 EPQ.**
 The first of three uncut sheets from this 1904 Bank of Hamilton issue. This \$10 denomination example features a central vignette on the face of Queen Alexandra seated on a throne, blue-inked "SPECIMEN" on both sides, and 4 POCs across the lower portion of each note. This will only be the second time we have handled this denomination from this issue and is the first time that an uncut sheet will cross our auction block.

From the Feeling Good Collection

Estimate: \$5,000-\$7,000

Starting Bid: \$2,500

Bank of Hamilton Uncut Sheet of \$20 Specimens

28029 Hamilton, ON- Bank of Hamilton \$20 2.1.1904 Ch. # 345-18-06S Specimen Uncut Sheet of Four. PMG Choice Uncirculated 64.

The second of three uncut sheets from this 1904 Bank of Hamilton issue. This \$20 denomination example features a central vignette of King Edward VII on the face, red-inked "SPECIMEN" on both sides, and 4 POCs across the lower portion of each note. We have only handled this Bank of Hamilton issue twice and this will be the first time that an uncut sheet will cross our auction block.

From the Feeling Good Collection

Estimate: \$5,000-\$7,500

Starting Bid: \$2,500

Bank of Hamilton Uncut Sheet of \$50 Specimens

28030 Hamilton, ON- Bank of Hamilton \$50 2.1.1904 Ch. # 345-18-08S Specimen Uncut Sheet of Four. **PMG Gem Uncirculated 65 EPQ.**

The third of three uncut sheets from this 1904 Bank of Hamilton issue. This \$50 denomination example features a face side vignette of Queen Alexandra seated on a throne, red-inked "SPECIMEN" on both sides, and 2 POCs across the lower portion of each note. Of interest, Charlton mentions that regular issued \$50 denominated notes are not available to collectors as known examples are maintained in institutional collections only. This will only be the second time we have handled this large denomination from this issue and is the first time that an uncut sheet will cross our auction block.

Early Banque D'Hochelaga \$5

28031 **Montreal, PQ- Banque D'Hochelaga** \$5 Jan. 2, 1874 Ch. # 360-10-06.

Of the dozens of rare notes from this bank to pass through our auctions, this is the earliest issue we have handled. Survivors prior to the issues of the 1890s are rarely seen and can be considered institutional caliber when encountered. This note is evenly circulated with bright paper and deep inks. Some pulls, a tear, and evidence of previous mounting are noted, but will not detract the die hard Canadian Charter collectors. PMG Very Fine 25, previously mounted with an approximate .375 inch bottom edge tear.

1898 \$100 Yukon Overprint Specimen

28032 **Toronto, ON- The Canadian Bank of Commerce \$100 May 2, 1898 Ch. # 75-14-57as Yukon Overprint Specimen.**

The Yukon was the undeveloped frontier in a country that was sparsely populated outside of a few cities in its western provinces. The region and the notes intended to circulate there have captivated collectors since they were first printed. These notes were issued out of the Canadian Bank of Commerce in Toronto and featured a large blue YUKON overprint twice vertically on the face. Graham indicates no examples of this denomination were issued for circulation, yet there are two known surviving Specimens, this one the finer of the two known. In addition to the deep blue overprint, SPECIMEN is printed in red twice one the face, with one hole cancel at lower left. A stunning example of Canadian monetary history. PMG **Gem Uncirculated 65 EPQ**, with two pinholes noted at bottom and likely from around the time of issue.

Sole PMG Graded Specimen

28033 Ceylon Oriental Bank Corporation 5 Rupees 1.1.1883 Pick S142as Specimen.

An elusive design from the private bank that issued notes all over the region, including Hong Kong and Singapore. A wonderful early steel plate design from Bradbury Wilkinson, which features an attractive vignette of who could be Queen Victoria (Britannia did not have a crown) flanked by lions. The red counterfeit protector remains brilliant with all fine details very visible. A roulette cancel is seen. Uncommon for steel plate notes of this era, a full multicolor back is seen. Though numbered later than the colorful Bradbury Wilkinson Ceylon design we are featuring in this session, this design preceded it by a few decades. Only intricate steelplate designs are seen, as prepared by Batho & Bingley. This earlier design was still denominated in Pounds. Embossing especially of the border can still be seen. A higher denomination using the basic layout and design also seen on other contemporary Oriental Bank issues, including those for Hong Kong and Singapore, with some localization of the language and denominations. Intricate details are excellent on this Batho & Bingley printed example. This is the only example in the PMG Census, and the highest denomination known so far for this Ceylon branch series.

Scarce Chefoo Branch Issue

28037 **China** Hongkong and Shanghai Banking Corporation 10 Dollars 1.9.1922 Pick S317a.

The elusive local issue from Chefoo, today known as Yantai in Shandong Province. While the area was a major trading port for a variety of countries including Japan, Germany (who formerly occupied the nearby Tsingtao/Kiau Chau Bay), Russia, and the United Kingdom, the well capitalized HSBC did not gain a strong foothold in the area. As politics dominated the air in the post-World War I years, the province was still under heavy influence of the Japanese. The HSBC probably tried to gain a position in the area in 1922 after the conclusion of the Shandong Problem, but eventually failed with the Japanese choking off Western interests in the years before World War II. As a result, only one series was issued for Chefoo, with this being the largest denomination.

Excellent colors are seen on both sides of this elusive note which is one of the finest notes handled by PMG with the all original EPQ designation. Views of the HSBC buildings in Hong Kong and Shanghai are featured on the back. PMG **About Uncirculated 55 EPQ**.

Apart from Hong Kong, the HSBC issued the most notes from its home base in Shanghai, from the early years of its establishment to notes of this 1923 series when issuing rights were transferred to Chinese banks and eventually the Central Bank of China. All features from the brilliant underprint colors to the embossing on the rosettes and deeply inked signatures are excellent. This example is tied for the finest graded of this type. Sole Example in PMG Census

28039 **China** Hongkong and Shanghai Banking Corporation 5 Dollars 1.1.1901 Pick S378.

A Tientsin city of issue is seen on this classically designed example still using steel plates designed and printed by Barclay and Fry. The colonial badge of Hong Kong is seen on the face and back, most likely as the design was standardized across all issuing offices in this early Barclay and Fry series. Though the denomination is for Local Currency, there was most likely a recognizable amount of attempts to try and arbitrage these similar looking notes across different cities.

Excellent colors and the all original EPQ designation must be noted on this example, which is the sole example in the PMG Census. As these notes went through several rounds of replacement and redemption, this may be the finest example extant. PMG **About Uncirculated 55 EPQ**.

Finest PMG Graded Example

28040 China Hongkong and Shanghai Banking Corporation 5 Dollars 1.6.1907 Pick S381.

A distinctive design was used for this grandly sized note for the treaty port of Tientsin, with scenes of farming, trade and a gate on the face. Tientsin was one of the first treaty ports opened in China to foreign traders, and because of its proximity to Beijing, was a major area of operation to British and French traders, later joined by Germans in the Empire era. As the currency in circulation was different between the cities, a separate design had to be issued, especially by large banks such as the HSBC. Invariably however, the local coin in circulation for trade was the Mexican dollar.

This example features brilliant inks and excellent Bradbury Wilkinson embossing. Not unexpectedly, this is the sole finest graded of this always popular example. Manuscript signatures remain dark. PMG **Choice Extremely Fine 45 EPQ**.

Rare Banque de l'Indo-Chine Shanghai Branch Specimen

28041 China Banque de l'Indo-Chine 5 Dollars = 5 Piastres 15.1.1902 Pick S440As Specimen.

A King of Banque de l'Indo-Chine issues. The red design featuring Neptune was shared on many other issues of the French interest bank operating in her colonies, but this example was intended to be issued in the bustling port of Shanghai. The Shanghai branch was among the earliest to be established, and continued operations after Liberation in 1949. However, like issues for other Chinese cities, only one series was released. The bank still heavily tied with the Government of France could simply not compete with British interest banks which operated in the same area. As French colonial expansion moved south, the bank decided to limit the issuance of banknotes from its Chinese offices. Only Specimens are known for this denomination. This example preserves all features and fine details, allowing the collector to fully enjoy the French designs as the artist intended. PMG **Gem Uncirculated 66 EPQ**.

Finest Graded Example in PMG Census

28042 **China** Netherlands Trading Society 10 Dollars 1.1.1909 Pick S459.

Brilliant, original colors of the red dragons on yellow background are seen on both sides of this always popular example. This Empire era banknote was issued by the private trading firm, which along with several firms doing business in China at that time, created their own money payable in the area of trade, invariably to also raise funds for their own operations. The bank issued only two series of notes, one in 1909 and another in 1922. The bank continues to operate today as a part of ABN AMRO bank, but like the Banque de l'Indo-Chine, stopped issuing banknotes for China as focus turned towards territories in Southeast Asia (for the Netherlands, it was Indonesia).

A wonderful warrior vignette is seen on the face of this Bradbury Wilkinson designed and printed note. Several features, including the multicolor underprint, remain excellent. This example is the finest graded of only three notes in the PMG Census. Given the strength of this bank and its long operating history, it is unlikely many more would exist today, as they would have been redeemed for silver. PMG **Very Fine 30**.

Finest Graded Harbin Branch Issue

28043 China Russo-Asiatic Bank 50 Dollars ND (1910) Pick S465.

The finest graded example of this always popular Dragon note. These notes were introduced by the Russian interest bank when it decided to expand its operations. Former notes of the Tientsin Russo-Chinese Bank for 50 Hong Ping Hua Pao (a weight description, akin to troy for ounces) Taels were overprinted for more commonly circulating dollars, along with the new region of influence of Harbin. The bank later issued Ruble denominations from Harbin as it gained more influence in the region.

The art on this large denomination is simply outstanding. The EPQ designation allows the collector to fully enjoy every nuance, from the subtle color shifts to the intaglio elements. As the issue size was not large for this interim series, this example may very well be the finest issued example in existence. PMG **Choice Uncirculated 64 EPQ**.

The middle denomination of this overprint series, eclipsed only by the 500 Dollars note, and very elusive as an issued example. The original name as seen on the note is the Tientsin Sino-Russian Righteousness Victory Bank, which was changed to the Harbin Sino-Russian Righteousness Victory Bank, with a corresponding change to the English titles to the Russo-Asiatic Bank. Interestingly, only Chinese and English are seen on this example, with no Russian text. Mona Lisa Color Trial Specimen

28047 Costa Rica Banco Internacional 2 Colones ND (1931-36) Pick 167cts Color Trial Specimen.

Arguably the most famous design from Costa Rica. Mona Lisa is featured on this always attractive example, with a view of an ox cart on the back. Waterlow and Sons only used this portrait once on any issued note, as customers often thought it was too recognizable. However, officials at the Banco Internacional, then the de facto national bank at the time, thought the opposite and wanted a renowned portrait on their notes, which previously featured allegories from the American Bank Note Company's archives.

This example's Color Trial Specimen status must also be noted. Though the underprint remains the same, the intaglio features on the face is black instead of the issued dark brown. However, the back design is executed in green, a striking difference from the black which was eventually used on the issued version. An excellent and well preserved example from an earlier stage of banknote design, with all features preserved as well as the day as it was printed. Rare 1929 Issue 10 Colones

28048 Costa Rica Banco Internacional 10 Colones 5.2.1929 Pick 189B.

Superior colors are seen on this elusive example. This design, along with only the 5 Colones note, were the only examples bearing the 5.2.1929 date, and are printed by Thomas De La Rue. Yet, from 1918 to 1929 the large majority of notes were designed and printed by the American Bank Note Company. It was only from 1931 forward that Thomas De La Rue received a contract for a few denominations, which were printed in several intaglio colors. The added exclusivity of these two 1929 designs add to the hypothesis that these early examples were a trial or reserve series, prepared only for the Caja de Conversion series as stocks of earlier notes (also printed by the ABNC) were exhausted. Nevertheless, all original and deep colors are seen, with a detailed vignette of coffee drying on the face. No records of this example are in the PMG Census. PCGS **Gem New 66PPQ**.

Unlike the bond notes sold in the United States, these had a no interest clause, and simply circulated at face value. The manuscript signature of Carlos Manuel de Céspedes remains dark and excellent on this historically important example. East African Currency Board Specimen

28069 East Africa Currency Board 100 Shillings = £5 1.1.1933 Pick 23s Specimen.

King George V is featured on this always popular high denomination note. Wonderful golden and yellow colors continue to shine on this example. This example is from the second Shilling series of 1933, which replaced the former Florin series. The general layout of this note, with an effigy of the monarch, lion on the back, and honeycomb EACB watermarks, was used up to the 1957 Elizabeth II series. As this note represented a significant sum of money, especially in East Africa, along with the stability of the currency, most issued notes were expected to have been redeemed, leaving Specimens as this one the only way for collectors to enjoy this design. A solid example. PMG **Extremely Fine 40**.

Sole Example in PMG Census.

28070 **East Africa** Currency Board 1000 Shillings = £50 2.1.1939 Pick 31B Specimen.

The only example of this high denomination in the PMG Census. Only Specimens are known of this design, which is uncommon as the blue 10000 Shillings denomination was issued. All features are excellent on this presentation design, with full signatures, all zero serial numbers, and no cancellations or stamps. Embossing is heavy, especially of the bank titles and denomination device, and can be easily seen on the stainless back. Pen annotations which further date this note to 19th April 1939 are noted. High Grade 1798 Hand Signed 5 Pesos 7 Reales

28071 Ecuador Guaranda 5 Pesos 7 Reales 1798 Pick Unlisted.

A certainly interesting example. The present state of Ecuador at the time was part of the Viceroyalty of New Granada, a part of the Spanish Empire which existed from 1717 to 1821. Despite this large area which encompassed all of northern South America's Spanish areas, the city of Guaranda is clearly seen on this example. The royal seal on the face and stamp of Carlos IV on the back indicates this was an official, if small, issue to facilitate transactions. The odd denomination of 5 7/8 Spanish milled dollars is also interesting. An example that deserves more research. PMG **Gem Uncirculated 65 EPQ**.

A uniface Color Trial Specimen of the face from the second series. The colors are much more attractive than what was used on the issued example. The red, green, and purple underprint guilloche patterns contrast very well with the navy intaglio features. The Sultan al-Nasir Muhammad ibn Qala'un Mosque is featured. Vividly Colored Egyptian £100 Specimen

28073 Egypt National Bank of Egypt £100 ND (1913-19) Pick 16s Specimen.

Quite simply, the sole finest example of this elusive design in any type in the PMG Census. Though both this design and the later design (Pick 17) both featured the Mohammed Ali Mosque in Cairo, this example features the design in the center, and was issued for only seven years between 1913 and 1919. The multicolor underprints are wonderfully preserved on this example, with the stainless paper reflecting every color brilliantly. Annotations further help date this example to an earlier 1911 date, two years before the first issued note. A simply striking and very enticing example with the all original EPQ designation. A more attractive robin's egg blue tint is seen around the edges of this Color Trial Specimen, which blends wonderfully with the light red and green in the center. Brown is used for the intaglio features. Though this example is uniface and does not include the striking vignette of the Mosque of Muhammad Ali in Cairo, this back design was only used for that elusive issue. All examples known are in the 800000 block, which means the purple example in this lot is the 95th note of this series. It is also the finest graded of this entire design in the PMG Census. 28078 Equatorial African States Banque Centrale 10000 Francs ND (1968) Pick 7.

This colorful 10,000 Francs note includes a portrait of President Bokassa along with the Rock Hotel on the face. Only one signature variety was issued for this design, often interpreted as a commemorative for Bokassa (and the Central African Republic) as no other Equatorial African State had their localized issue for this series. Fanning Island Plantations Ltd. World War II Issue

28082 Fanning Island Fanning Island Plantations £1 ND (1940s) Pick 100.

The full note as it was meant to be viewed, with all features as perfect as the day it was printed. The design is known to many collectors, as the designs were cut and used as cinema tickets, and then redenominated to be used as one and two shillings notes. This one however, was most likely preserved by an astute collector among the soldiers stationed there in 1942, which was the original reason for these interim notes. As the Fanning Islands became a staging ground for US operations in the Pacific with large amounts of troops, the supply of locally circulating Australian pounds was not enough. Manager RG Garrett ordered 3000 of these notes from Hawaii to fill the immediate gap, and circulated until the conclusion of World War II.

A very appealing example, especially as a complete note and with all original features and stainless paper. A serial number near the end of the expected print run is seen. PMG Choice Uncirculated 64 EPQ.

Sole Specimen Example in PMG Census

28083 Fiji Government of Fiji £5 ND (1934-35) Pick 34s Specimen.

A well centered high denomination featuring a striking portrait of King George V. While the design looks similar to all other notes of the King George V series, this particular denomination was not issued in large quantities. This was probably due to the short timeline of the note, as it was introduced just a year before the monarch's death. As a result, there is a lack of issued notes with which we can compare; this example may very well be a Color Trial Specimen like the other Fiji notes we are offering in today's session. Two colors are seen, unlike issued examples of other denominations which had the intaglio designs other than the portrait executed in a single color.

Heavy embossing is evident on this example, and can be seen on the stainless back, which has a light hint of wet ink transfer which keeps the gradient colors. A fantastic presentation example that is appealing in every way. A very interesting example that requires more research.

An always popular design from the first portrait series of Fiji, featuring King George V. The color scheme is quite like the £5 note we are offering in today's session, with the band in the middle replaced with a more purple hue. Like the other Fiji issues, embossing is particularly heavy on this example. The colors on the back are wonderful on the stainless paper. The striking portrait of King George V is featured with excellent detail, flanked by intricate borders on the stainless paper. This Color Trial Specimen is more pleasing than the issued example, as it uses two colors which blend together instead of the single dark green eventually selected. "Y2K" Millennium \$2000 Commemorative

28086 Fiji Reserve Bank of Fiji 2000 Dollars 2000 Pick 103a.

This high denomination note is a true scarcity of modern banknotes. Although 2,000 examples were originally produced, only 100 were released into public hands with the remaining 1,900 notes returned to the Reserve Bank of Fiji.

This large size "Y2K" commemorative banknote was issued "to commemorate Fiji as the first country in the world to see the new millennium and the last to see the sunset of the old millennium," represented by the back depiction featuring a map of the Fiji islands and the 180th meridian along with the sun rising over the earth. The face of the note features the "Y2K" overprint and serial number prefix along with the portrait of Ratu Sir Kamisese Mara, who is considered to be the founding father of modern Fiji. A stunning example of the always popular "wolfman" note. The names Soumen Yhdyspankki and Foreningsbanken i Finland are titles of the same bank, the former in the Finnish language and the latter in Swedish, which mean the Union Bank of Finland. The bank was the first commercial bank in Finland, established in 1862, and served to provide agriculture credit. Alonzo Earl Foringer Inspired 100 Francs

28089 France Banque de France 100 Francs ND (ca. 1917) Pick 75 Face and Counter Proofs.

During the course of 1916-17, ABNCo spent a good deal of time and effort developing concepts for a 100 Franc design for the Bank of France. The French government planned to issue these notes in the event that Paris fell to the Central Powers. That event and the notes, therefore, never materialized.

There is evidence that some, if not all, of the design was based on the work of Alonzo Earl Foringer and that the face proof offered here was one of several designs considered. The central vignette is a variation on the female figure titled Allegory Railroad. In it, a maiden stands atop a winged wheel, but the locomotives, seen on several other versions, have been removed from her sides. Also included are two progress die proofs of the counters that flank the allegorical vignette, with one being the blue-green ink pass and one the orange-brown ink pass. These printings had to be precisely aligned in order to produce the desired effect. The face proof has been assigned a grade of PMG **Gem Uncirculated 65 EPQ**, and the counters a grade of **Superb Gem Unc 67 EPQ**.

10 Nouveaux Francs on 1000 Francs ND (1961) Pick 2s Specimen.

A wonderful companion pair of this high denomination. The issued example in a Gem grade is especially exhilarating, as its overprinted interim status and large format meant it was quickly replaced just two years later by a smaller design. Both examples exhibit heavy embossing, especially of the repeating print around the border, which includes the names of the three communities which together formed the French Antilles. Sole PMG Graded 1940 1000 Francs Specimen

28091 French Equatorial Africa Gouvernement General Bon de Caisse 1000 Francs 1940 Pick 4s Specimen.

Collectors will undoubtedly remember that we have featured this striking design only once before - an issued example from the Ruth Hill Collection. Wild issued notes of this design are known, this is the first time that a Specimen has been publically offered. The full counterfoil is included on this example, which was cut off and retained on all issued ones. Colors of the underprint featuring a man rowing is excellent. No signatures are seen in the space for Le Tresorier General, which was painstakingly hand-signed on issued examples. There is also no embossed seal for French Equatorial Africa, as this note was not issued.

Further research indicates this note was prepared after the main print run ended, up to 1944 when almost all notes were redeemed for new "official" notes. This is understandable as these were emergency notes issued by Free France which were pressed into service to pay troops and government workers as quickly as possible, hence skipping any Specimen or extended design stage. Issued examples known so far bear an O or R series, with a five digit serial number. This example bears a W series, with a longer six digit serial number which is also quite high. Nevertheless, all features of this storied and historically important design. PMG **About Uncirculated 55**.

While the 5 denomination from both areas of this series used this design, what was used for the 100 Piastres denomination was changed, with a much more striking color palette. A wonderful example of this highest denomination issued for German East Africa, featuring Kaiser Wilhelm II. Though all notes were designed and printed by Giesecke & Devrient, the 500 Rupien note has the distinction of having a different portrait and layout. This note was issued for a few short years, before Emergency issues were printed during World War I and the colony was subsequently ceded after Germany's loss. This is the finest graded example in the PMG Census, and the only other issued note to be offered publicly in recent years. Another issued Very Fine 20 note realized \$10,200 in 2017. Scarce Bulgaria Overprint Issue

28099 Great Britain British Military Authority £1 ND (1943-45) Pick M6b Bulgaria Overprint.

The BMA issue with the "Bulgaria" overprint is one that all serious military collectors desire. The general consensus is that only 25 of these experimental notes were prepared for Bulgaria, another 25 for Greece, and 50 notes for France. All of the overprinted notes were serial numbered sequentially in the above order and come from the 39Z prefix. The reasons for this short run is unclear, but generally assumed to have been a part of a grand plan. In order to obfuscate the planned North African landings, these three destinations were printed and distributed only to a limited number of officers, who made sure to show them before exchanging them for regular notes. We have never previously handled this low serial number before, making it a welcomed artifact to those deciphering the stories behind these issues. PCGS Choice About New 58PPQ.

Sole PMG Graded Color Trial Proof from Rare Grenada 1920 Series

28100 **Grenada** Government of Grenada 5 Shillings 1.7.1920 Pick 2ctp Color Trial Proof.

A simply outstanding proof that is the only design known of this series. The golden border is hand painted, with several other features also custom-made for just this design. During this time, the currency in circulation was mostly the Spanish or Mexican dollar for trade. This note may represent an artifact of Great Britain's attempt to introduce a standardized Sterling based currency throughout the Empire. However, like the attempts in the Straits Settlements, Hong Kong, and Canada where association to the milled dollar was strong, this attempt to introduce Sterling in Grenada also failed.

Excellent colors are seen on this wonderful example. An interesting A109670 serial number is seen. This is the only example of this design graded by PMG. **Uncirculated 61** with pen annotations.

The highest denomination of the Banana Tree series, which was only issued once during the series of 1920-24 with the Convention 02.05.1919. Superior colors are seen on this American Bank Note Company designed and printed note, with the first A prefix. India Giesecke and Devrient LEAD Test 1000 Rupees Note

28111 **India** Reserve Bank of India 1000 Rupees 5.11.1998 Pick Unlisted Giesecke and Devrient Lead Test Note.

A second example of this Giesecke and Devrient trial that we have offered. The design is dated to 1998, which is two years before the first issuance of the actual 1000 Rupee note. This note is executed in a different color from the red issued note, but uses the same layout with some minor design changes around the frames. The existence of the LEAD holographic strip in the right side also suggests this note was probably printed to sell the Giesecke and Devrient technology.

As India has its own banknote printing works, it is unlikely this test note was printed to acquire the entire printing contract. However, this note was also dated to 1998, during which the Government of India imported 3.6 billion banknotes from various printers around the world to fill the gap between demand and locally produced notes. Though the printing contract to G+D was only for Rs. 500 notes, the existence of this note gives credence to the hypothesis that the printing company either acquired or designed plates for this higher denomination, in order to sell its paper and anti-counterfeiting technologies as well.

This note is probably unique, and exhibited only to the highest ranking officials in the Reserve Bank and Note Security Printing and Minting Corporation of India. A must for any collector of Indian notes, with its lofty grade and ladder serial number. PMG **Superb Gem Uncirculated**

Modern High Denomination 25000 Dinars Face Proof

28126 Iraq Central Bank of Iraq 25000 Dinars 2013 Pick Unlisted Face Proof.

A very interesting example which comes to us from Giesecke and Devrient. Even in today's modern and digital world which extends to banknote design and printing, it is evident through this note that Proofs are still needed. Though this example is like the current upgrade 25000 Dinar note in circulation, there are notable differences, including the color palette used for the intaglio and underprint features, the lack of the Dinar coin in the right, and various other small details in the designs. After the first series of the new Iraqi Dinar which was printed by Thomas De La Rue, Giesecke and Devrient won the rights to print the higher denominations of the 2013 Series, which includes trademark G+D anti-counterfeiting features such as the LaserCut window and RollingStar thread. Finest PMG Graded 1927 Japan 200 Yen Specimen

28134 Japan Bank of Japan 200 Yen ND (1927) Pick 37Bs Specimen.

Unlike the ornately designed contemporary notes of Japan, this austere design was introduced as a response to bank runs, price depression, and financial instability arising from the Showa Financial Crisis of 1927, and subsequent shocks of 1930-31. These notes were prepared in order to attempt to shore up banks from any possible runs, as a part of Finance Minister Takahashi Korekiyo's (who was later featured on the 50 Yen note) plan to cushion large shocks to the economy. Eventually, only a few notes of this design were issued (all with block 1), most likely due to infighting within the government and ministry in regards to re-inflating the economy through printing banknotes. As a result, these Specimens with placeholders for block numbers are often the only available examples of this uniface design.

This is the finest example we have featured, and the sole finest graded of this type in the PMG Census. The last example we have offered of this type was an About Uncirculated 50 EPQ note from the Dr. Norman Jacobs Collection in 2011, which realized \$19,550. An expedient specimen of this golden note featuring the Takebe Shrine in Shiga Prefecture and legendary prince Yamato Takeru. Though this note was released near the end of World War II to help with the increased demand of banknotes due to inflation, the print quality and "redeemable in gold" clause indicate this design was originally planned with the series of 1930. As a result, the brilliant colors are joined with excellent 3D-like watermarks as expected on all Japanese banknotes. Regular serial numbers, small mihon stamps and four hole cancels are seen. Likewise, its rarity matches that of a Palestine £50 note. Issuance of this note was so little that the denomination was not introduced after this series until 1992. A very appealing example of this Bradbury Wilkinson note with the first overprint. Embossing is sharp, with the multicolor underprint excellently preserved. While most notes of this series were heavily circulated and later supplemented with French printed issues, it is a delight to see an example in any form in such Gem conditions. The clock tower of the Grand Serail in Beirut is featured on the face. Hole cancel and rather faint CANCELLED stamps are seen on the note. PMG **Gem Uncirculated 66 EPQ**.

An outstanding example of this high denomination from the only series issued under the "Kingdom of Libya" name. King Idris is featured to the left of this example, which eventually reverted to the brown color used on an earlier note. More brilliant underprint colors are seen on this example, with the yellow bordering the note very attractive. All zero serial numbers, sharp embossing, and lack of mounting indicates this was a presentation Specimen. Hole punch cancels are seen over the serial numbers. Finest Graded in PMG Census

28151 Mauritius Government of Mauritius 5 Rupees 1.10.1918 Pick 16.

Quite simply, the finest example of this middle denomination from the earlier series of Mauritius. Embossing from the letterpress serial numbers and date are heavy and easily seen. These early notes imitate the style of contemporary notes, with steel plate designs and intricate anti-counterfeiting designs. Though no printer's imprint is seen, these were undoubtedly printed in Britain and then delivered to the African islands to be stamped with the signatures and then issued. Discovery Banco de Londres, Mexico y Sud America Bradbury Wilkinson Proposal

28156 Mexico Banco de Londres Mexico y Sud America 5 Pesos ND (1882) Pick Unlisted Specimen.

An unlisted and very attractive Bradbury Wilkinson example. This example is not listed anywhere, but a few clues help us in uncovering the mystery behind it. The Bradbury Wilkinson layout is shared with contemporary issues across the world, including the Finnish "Wolfman" note, with the light intricate underprints and steelplate designs. A further annotation of "21 Feb 82" help us date this example. But when investigating issues of the London Bank of Mexico and South America Limited, we can see the first issues for Mexico started in 1883, and notes for the bank through all operated countries including Peru were designed and printed by the American Bank Note Company.

Most likely, this note was a proposal that was never adopted. The date that was after the bank's founding in London may indicate this was prepared as a response to a tender for new banknotes in the countries of operation. As the design was never selected, it never entered any catalogs, and to an extent, lost to time as both the bank and Bradbury Wilkinson were acquired in the 20th Century. A very attractive design and very well a discovery piece. PCGS **Gem New 66PPQ**.

Notes of this series were quickly outmoded by notes of the Banque de l'Indo-Chine, which started issuing notes during the same year. The bold blue colors are excellent on this uniface note, which allowed the bleeding as a security feature. From our previous offerings, we know some notes were cancelled, most likely after the bank was de-established and replaced by the Banque de l'Indo-Chine. A familiar design, but not at all a familiar place of issue or format. The Banque de l'Indo-Chine is known to have used the same design across all territories during this time, which often led the inhabitants (especially in French Oceania) to wonder where the flora, fauna, or statues originated. Similarly on this example, a design with dragons and more fitting for Asia is recolored in blue, and prepared for issue by the office in Noumea, New Caledonia. A very interesting date of 0.6.1916 is seen on this presentation Specimen with excellent embossing and all original colors. NORTH AFRICA

Unique States of North Africa Color Trial Set

28167 **States of North Africa** Currency Commissioners 5 Cents ND (1900s) Pick 10 and 10ct. Example Intended for Circulation and 17 Color Trials.

A design that this cataloger has certainly never seen before. Research for these appealing designs comes to a dead end, including any queries for a proposed "State of North Africa," Barnett-Loames signatures, or the effigy which almost certainly depicts the side-facing bust of Pericles. Yet, your cataloguer has recognized the serial number font on all examples (which bear block 1257 and serial 091531) as distinctively Italian, used on small change notes from 1893 to 1904, printed by the Oficina Governativa Carte in Valori, Turin (Italy Pick 23, 33, and 35). These serial numbers are different from later Italian notes, as these feature rounded 0 and 3s. It is far more likely the designs and color combinations were executed by a British printer as our consignor purchased them from a Spink sale that featured many specimens and proofs from domestic printers. Then possibly numbered by the Italian government, which oversaw much of North Africa at the time.

Pinpointing these dates helps to decode why these notes were issued. From the unification of Italy in 1871, there was much nationalistic fervor to have Italy join in the colonization race, which it was behind in comparison to namely England and France. Italy already had large spheres of influence in large parts of North Africa, reaching from Algeria to Tunisia to Libya. From 1879 onwards, there were several attempts by Italy to gain colonies in North Africa, including the First Italo-Ethiopian War, in which the vastly outnumbered Italy was defeated. Later attempts however, were more successful, including the Libyan campaign, up to gaining some more African territories at the end of World War I.

These notes may have been prepared for what was envisioned as a North African state under Italian control, akin to French West Africa, French East Africa, British West Africa, British East Africa, German East Africa, and other colonial domains. However, due to certain political and operational issues, that plan never came into fruition and apparently not even records were kept of this grand plan.

A multitude of different color palettes are used on this set, one of which is designated as the issued example, with all others Color Trials. All of the color combinations are rare, and we believe most of them in this set to be unique. All bear the same designs and serial numbers. Three examples are PMG **About Uncirculated 55 EPQ**, one example is PMG Choice **About Uncirculated 58 EPQ**, two examples are PMG **Choice Uncirculated 63**, with a tear noted on both examples, three examples are PMG **Choice Uncirculated 64**, with a hinge noted on the purple-brown/tan example. Five examples are PMG **Gem Uncirculated 65 EPQ** and four examples are PMG **Gem Uncirculated 66 EPQ**.

As this set may very well be the discovery set of this design, more research is certainly needed. A lower estimate we expect will be easily exceeded will be used, for the benefit of all collectors, historians, and economists everywhere who may want a chance of acquiring this pleasing and historically important set.

28169 Philippines Victory Series 500 Pesos ND (1944) Pick 101c.

The highest denomination of the Victory Series, featuring explorer and first Governor-General of the Spanish East Indies Miguel Lopez de Legazpi. These notes were prepared in 1944, to be issued in the Philippines upon liberation and the return of General MacArthur. According to a BEP report, the series number 66 was based on the age of President Manuel L. Quezon, who died just prior to liberation. The third signature variety with the signatures of President Manuel Roxas and Treasurer Marciano Guevara is seen, which according to BEP records, 163,284 examples were delivered. Because of the high denomination, the 500 Pesos note was demonetized first by the Philippine government on December 31st 1957, and due to the high purchasing power, most were expected to have been redeemed.

28180 **Reunion** Banque de la Reunion 50 Centimes 8.10.1942 Pick 30.

A coveted emergency issue from Vichy Authorities for the French Territory off the coast of Madagascar. Even though the island was of little significance, its leader Pierre Aubert had no choice but to recognize the new government in France, instead of surrendering the island to the British or declaring itself a rebellious territory. The Banque de la Reunion prepared three notes, of which this was the smallest. Even though the territory was technically under Vichy command since late 1940, these notes were only issued in October 1942, just one month before Free French forces liberated the island. As a result, the issuance was small, and with the Vichy Axe boldly printed on every note, most were expected to be destroyed. Finest PMG Graded Vichy Government 1 Franc

28181 **Reunion** Banque de la Reunion 1 Franc 8.10.1942 Pick 31.

The middle denomination of three issues from the Vichy-leaning authorities on the French island off the coast of Madagascar. Even though Governor Pierre Aubert declared his allegiance to the new Vichy Government in late 1940, no new banknotes were printed, as the small island could function with a mix of notes issued by the Banque de la Reunion and bearer checks for higher denominations, and coins for smaller ones. Unfortunately for this series, it was issued just one month before Free French forces liberated the island. These notes bearing the Vichy Axe were destroyed, and a more popular design bearing the Free French Cross of Lorraine was pressed into service.

This example is tied for the finest graded in the PMG Census. An excellent example with all original colors, having escaped both circulation and destruction. PMG **Choice Uncirculated 64**.

Vichy French Government Highest Denomination Issue

28182 **Reunion** Banque de la Reunion 2 Francs 8.10.1942 Pick 32.

The sole example of this design to have been graded by PMG. This was the largest denomination from the short-lived Vichy Government emergency issue, unfortunately introduced just a month before the island was liberated by Free French Forces. These notes were printed in a two stage process - first the underprint and then the black elements. After Free French Forces took over and destroyed the already printed stocks, the notes were reprinted, but with the Cross of Lorraine replacing the Vichy Axe. Interestingly, the director signature remained the same. PMG **Choice Uncirculated 64**.

1943 2 Francs with Exceptional Embossing

28183 **Reunion** Banque de la Reunion 2 Francs 12.8.1943 Pick 35.

A note from the series which followed the short-lived Vichy series. Though using largely the same design, the Vichy Axe has been replaced by the Cross of Lorraine of the Free French Forces, after the liberation of the remote French region. The signature of the Director of the Banque de la Reunion remained the same. An excellent example in Gem condition, as these notes were issued to replace coins in circulation and expected to be heavily circulated. PMG **Gem Uncirculated 66 EPQ** with great embossing noticed.

An allegorical figure, agriculture, and a view of Victoria Falls are featured on the face of this well embossed, all original and brilliantly colored example. Several punch out cancels are seen. Consecutive Serial Numbered Pair

28185 Rhodesia and Nyasaland Bank of Rhodesia and Nyasaland £5 11.2.1961 Pick 22b. Two Consecutive Examples.

A pair of heavily embossed notes from the short-lived union. A view of Victoria Falls is featured on the back. Only one series of designs were issued under this name, with this denomination being the second highest. After the federation ended on 31st December 1963, Zambia and Malawi were formed, followed by Rhodesia which is today Zimbabwe. The currencies of the three new countries still followed the color pattern of this series. Both examples are PMG **Choice About Uncirculated 58 EPQ**.

Finest Grade in PMG Census

28186 Russia State Credit Note 3 Rubles 1878 Pick A42.

A later date is seen on this popular denomination from the Empire of Russia Treasury. At this time, these Rubles were exchangeable for gold, and this note equaled a coin of just over .115 troy ounces. This era of State Credit Notes issued by the Treasury instead of the former Assignation Bank also introduced several banknote designs, not only to keep up with the changing monarchs, but also alter the convertibility clauses as time went on. An excellent example with bright green colors, from the time of Czar Alexander II, whose monogram can be seen on the seal. PMG **Very Fine 20**.

28187 **Russia** Government Credit Note 100 Rubles 1898 Pick 5a.

A simply amazing note, especially considering it is still pack fresh, accentuated by the almost perfect centering, despite its grand size. Catherine the Great is featured on this Russian Empire era note, which was redeemable for a significant amount of gold rubles (as it states on the note, 1 ruble is 17.424 dolyas or .775g of pure gold). This is the sole finest example in the PMG Census. Pleske and Mikheyev signatures are seen. PMG **Superb Gem Unc 67 EPQ**.

The highest denomination issued by the Provisional White Russian Government. Due to good relations with the United States and the loss of state printing works, the entire series which features different allegorical women were designed and printed in the United States by the American Bank Note Company. Highest Denomination of Series

28190 Russia Treasury Short Term Certificate 10,000,000 Rubles 1921 Pick 122s Specimen.

The highest denomination of this series, issued by the (then pre-Soviet Union) Russian Soviet Federative Socialist Republic. A watermark of the seal of the RSFSR is seen. Though simple in design, these Specimens were most likely created to send to different banks to compare with. These short term obligations were issued as bond-like notes in order to cover government spending, but as inflation increased, they were used in regular circulation. Like contemporary German papiermarks, security features were reduced and notes were printed on only one side to save on costs. PCGS **Extremely Fine 45**.

A worker is seen on the face on a distinctively Soviet design, who was previously featured on an earlier series of Gold Ruble Obligation notes. A certainly elusive set in this format, especially as Specimens of currency were reserved for only the top echelons of government. All examples bear a Specimen stamp and AA0000000 serial numbers, and are fully printed on the correct watermarked paper. Seals and views of buildings around Moscow are featured on the lower denominations, while Lenin graces the higher denominations. The territory located on the Island of Borneo, and today a part of Malaysia, was acquired by the Brooke family through a series of land purchases. It received recognition from the United States and later the United Kingdom, and existed as a protectorate. The currency was pegged with the Straits Dollar, which circulated in bordering territories, and which eased transactions of mainly agricultural products produced in Sarawak. Proposed 1963 Southern Rhodesia 1 Pound

28201 **Southern Rhodesia** Bank of Southern Rhodesia £1 23.2.1963 Pick 21 Front and Back Printer's Models.

Southern Rhodesia was a British Crown colony, and its currency as a colony featured the monarch. The last fully issued notes featuring the Crown were dated 1955. The printer's models offered here this evening are dated 1963 pointing to the intention of a new issue. First, the dropping of "Southern" from the official country title in 1963 and a Unilateral Declaration of Independence in 1965, resulted in these designs being lost to the printer's archives.

Tonight we offer both the proposed £1, £5, and £10 designs intended for the 1963 issue. This pair is the front and back model from the £1 design. The redesign features a more mature Queen Elizabeth II, coat of arms at top and local fauna at bottom. Each of the models offered here tonight have pasted on dates, serial numbers and SIGNATURE in the signature panel. The front and back models are mounted on cardstock with a matte-like border and at bottom, a slightly toned and printed inscription, "Designed by Bradbury, Wilkinson & Co. Ltd." A lovely pair graded PMG **Gem Uncirculated 65 EPQ** and **Superb Gem Unc 67 EPQ**.

28202 **Southern Rhodesia** Bank of Southern Rhodesia £5 23.2.1963
Pick 22 Front and Back Printer's Models.

The proposed design used here on the £5 is quite different than the 1955 issue. A more elegant engraving of Queen Elizabeth II at right is flanked by a round open design intended to feature a watermark. At center, is the coat of arms and a Roan antelope at bottom. The design was fully engraved and printed in variegated colors. It is topped off with a pasted on serial number and SIGNATURE in the signature field. The front and back models are mounted in the same matte-like frame and a small printed label, "Designed by Bradbury, Wilkinson & Co. Ltd." A stunning pair in an unlikely grade. Early Spanish 500 Pesetas Specimen

28204 Spain Banco de Espana 500 Pesetas 1.1.1884 Pick 27s Specimen.

The second highest denomination of this series, designed and printed by the American Bank Note Company. Even though Spain had its own printing works at the time, having prepared a few series before this one, the American Bank Note Company was contracted with a few issues of their own, the first being the 1876 series and the second being this 1884 one. Issuance of these foreign printed notes was not widespread due to higher costs, the Spanish-American War which followed, and completely different designs and layouts.

A very elusive example as Color Trial Specimens were not prepared often for French printed banknotes due to the complexity of having to change almost all of the printing plates on these polychrome notes. This example features a red pattern in the background with green leaves, differing from the green background and red leaves eventually used. Yellow is also used for the main body of the back. 28217 Thailand Government of Thailand 1000 Baht ND (1944) Pick 53s1 Specimen.

Even though Thailand was officially neutral in World War II, it was under the heavy influence of the Empire of Japan. As a result, Japan printed a few series of banknotes for Thailand during that time, imitating the designs of previous Thomas De La Rue notes, but with key Japanese features such as the serial number fonts, paper, and intaglio. This example is the highest denomination of the 1944 series, and printed with excellent quality. King Rama VIII (who during World War II was in Switzerland) and the Chakri and Dusit Maha Throne Halls are featured on the face, with a view of the Royal Palace in Bangkok on the back. Finely Detailed De La Rue Printer's Essay

28218 Turkey Turkiye Cumhuriyet Merkez Bankasi 50 Livres (Turk Lirasi) 1930 Pick 122pe (Unlisted) Printer's Essay.

An interesting design that although it looks like the Pick 122 50 Livres of the 1926 series, sharing the same layout, portraits and vignettes, it is not. This design should be counted as an unlisted design, as it was never issued and different enough to be its own type. Headings are all written in the Turkish Latin alphabet recently introduced, with the denomination in Turk Lirasi instead of Livres Turques. All issued notes of this series had legends in the Ottoman Turkish alphabet and French. Heavy embossing is seen on this presentation example that was most likely prepared to have been issued, except cancelled at the last stage as a reduced size series was introduced. Well Embossed Unifaced 1957 One Dollar

28220 West Indies Currency Board \$1 2.1.1957 Pick 10.

An elusive design that is however instantly recognizable to all collectors. At the time of introduction of the British Caribbean dollar notes featuring King George VI, the currency was already officially known as the British West Indies Dollar, which circulated in British Guiana and the Eastern Caribbean territories. In 1958 when the West Indies Federation was established, this series of notes were proposed, using the same designs and layouts featuring Queen Elizabeth II and the new West Indies name. However, due to various reasons the old design and larger format was retained and these notes were never issued. After the breakup of the West Indies Federation in 1962, the Eastern Caribbean Central Bank took over issuance with the first issue of the East Caribbean Dollar. This uniface design is well embossed, and printed on banknote paper with watermarks and security threads. The back was most likely left blank as it previously featured the seals of individual states. Zanzibar 1908 Color Trial Specimen

28221 Zanzibar Zanzibar Government 20 Rupees 1.1.1908 Pick 4cts Color Trial Specimen.

A striking example in every way. Zanzibar only issued this one series of Rupee notes, all featuring the dhow and fruit harvest vignettes. These notes were first issued in 1908, the first year of the currency, which replaced the Zanzibar riyal and was equivalent to the Indian Rupee which was popular in trade in that region due to the spice trade. These notes circulated until 1935, when replaced with the East African Shilling. The issued note used green inks for the intaglio features, instead of the darker print on this example, which is very well juxtaposed by the golden and pink underprint. Several punch out cancels are seen, along with Specimen stamps and the Waterlow and Sons Specimen circle. This is the only example of this type in the PMG Census, as well as the highest denomination graded. With examples of 10 Rupee notes realizing more than \$60,000, high expectations are expected of this probable unique example. PMG **Gem Uncirculated 65 EPQ**.

Terms and Conditions of Auction

Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a of Heritage Auctioneers & Galleries, Inc., Heritage Auctions, Inc., Heritage Collectibles, Inc., Heritage Luxury Property Auctions, Inc., Heritage Numismatic Auctions, Inc., Heritage Vintage Sports Auctions, Inc., Currency Auctions of America, Inc., Heritage Auctions (HK) Limited, or Heritage Auctions – Europe Cooperatif U.A. as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
 - Fifteen percent (15%) on Domain Names & Intellectual Property Auction lots;
 - Twenty percent (20%) on Animation Art, Comic, Currency, Movie Posters, Sports Collectibles, US Coin, and World & Ancient Coin Auction lots;
 - Twenty-three percent (23%) on Wine Auction lots;
 - For lots in all other categories not listed above, the Buyer's Premium per lot is twenty-five percent (25%) on the first \$250,000, plus twenty percent (20%) of any amount between \$250,000 and \$2,500,000, plus twelve percent (12%) of any amount over \$2,500,000.
 - Minimum Buyer's Premium per lot is \$19, except for Sports Collectibles lots wherein the Buyer's Premium is \$14 per lot.

Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at <http://www.ha.com/c/ref/web-tips.zx#biddingTutorial>.
9. Presentation of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-409-1425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after

the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.

14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher. Auctioneer reserves the right after the hammer fall to accept bids and reopen bidding for bids placed through the Internet or otherwise. Regardless that bids are made on a Property, Auctioneer reserves the right to withdraw the Properties, or any part of the Properties, from the Auction at any time prior to the opening of any lot containing such Properties for sale by the auctioneer (crier), or in the case of Internet-only auctions when the bid opens for either live bidding online or the beginning of the extended period, if any.

15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.

16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40–60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.

17. Lots bearing bidding estimates shall open at Auctioneer's discretion (generally 40%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.

18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.

19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.

20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their bids through the Internet are directed to contact Client Services at 877-HERITAGE (437-4824).

21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.

22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal, or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (Ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.

24. Payment is due upon closing of the Auction session, or upon presentation of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot or Auctioneer. Alternatively, Auctioneer at its sole option, may charge a twenty (20%) fee based on the amount of the purchase. In either case the Auctioneer may offset amount of its claim against any monies owing to the Bidder or secure its claim against any of the Bidder's properties held by the Auctioneer.

25. Lots delivered to you, or your representative are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, or inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction, or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.

26. In the event that a Bidder's payment is dishonored upon presentation(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.

27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.

28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 15% seller's commissions, if sold at an Auctioneer's auction.

29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.

30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or its affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due

Terms and Conditions of Auction

Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.

31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

Delivery; Shipping, and Handling Charges:

32. Buyer is liable for shipping, handling, registration, and renewal fees, if any. Please refer to Auctioneer's website HA.com/c/shipping.zx for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.

33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.

34. All shipping charges will be borne by the successful Bidder. On all shipments in which Heritage charges the Delivery, Handling, and Transit Fee *infra*, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file, this is the "Secure Location". A common carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature. Auctioneer shall arrange, select, and engage common carriers and other transportation vendors on your behalf. Transit services are subject to the following terms and conditions:

a. Scope of Transit Services: Your properties for transit will be insured under one or more insurance policies issued by an authorized broker to Auctioneer. The properties will be insured for the invoice price of the properties (hammer price plus Buyer's Premium) ("Insured Value"). For each shipment, you will provide a Secure Location to which the items will be delivered. NOTICE: **Auctioneer is neither an insurance company nor a common carrier of any type.**

b. Auctioneer's Compensation for Transit Services: Auctioneer will provide transit services to Buyer for 1% of the Insured Value, plus packaging and handling fees and fees for the common carrier (collectively, "Delivery, Handling, and Transit Fee"). You agree to pay Delivery, Handling, and Transit Fee and comply with all terms of payment as set forth in paragraphs 23 to 31 of this Agreement.

c. Auctioneer's Limitation of Liability for Transit Services: You understand and agree that Auctioneer's liability for loss of or damage to the items, if any, ends when the items have been delivered to the Secure Location, and Auctioneer has received evidence of delivery. If you claim that any property has sustained loss or damage during transit, you must report any such loss or damage to Auctioneer within seventy-two (72) hours of the delivery date. Your recovery for loss of or damage to any property is limited to the lesser of actual cash value of the property or the Insured Value. **Under no circumstances is Auctioneer liable for consequential or punitive damages.**

35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.

36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) Brazilian rosewood, ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay, failure, or incapacity to obtain any such license or permit does not relieve the buyer of timely payment, or afford them the capacity to void their purchase or payment. For further information, please contact Ron Brackemyre at 800-872-6467 ext. 1312.

36B. California State law prohibits the importation of any product containing Python skin into the State of California, thus no lot containing Python skin will be shipped to or invoiced to a person or company in California.

36C. Auctioneer shall not be liable for any loss caused by or resulting from:
a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles

37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

Cataloging, Warranties and Disclaimers:

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions.

39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.

40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.

41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.

42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

Release:

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.

44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small

items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

Dispute Resolution and Arbitration Provision:

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.

46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.

47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.

48. Exclusive Dispute Resolution Process: All claims, disputes, or controversies in connection with, relating to and /or arising out of your Participation in the Auction or purchase of any lot, any interpretation of the Terms and Conditions of Sale or any amendments thereto, any description of any lot or condition report, any damage to any lot, any alleged verbal modification of any term of sale or condition report or description and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation or any claim made by you of a lot or your Participation in the auction involving the auction or a specific lot involving a warranty or representation of a consignor or other person or entity including Auctioneer { which claim you consent to be made a party} (collectively, "Claim") shall be exclusively heard by, and the claimant (or respondent as the case may be) and Heritage each consent to the Claim being presented in a confidential binding arbitration before a single arbitrator administrated by and conducted under the rules of, the American Arbitration Association. A Claim is not subject to class certification. Nothing herein shall be construed to extend the time of return or conditions and restrictions for return. This Agreement and any Claim shall be determined and construed under Texas law. The prevailing party (a party that is awarded substantial and material relief on its damage claim based on damages sought vs. awarded or the successful defense of a Claim based on damages sought vs. awarded) may be awarded its reasonable attorneys' fees and costs.

49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.

50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. Miscellaneous:

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.

53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.

54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

State Notices:

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City: This Auction is conducted in accord with the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This a Public Auction Sale conducted by Auctioneer. The New York City Auctioneers conducting the sale on behalf of Heritage Auctions No. 41513036 ("Auctioneer") are licensed Auctioneers including Dawes, Nicholas 1304724, Guzman, Kathleen 762165, Luray, Elyse 2015375, or as listed at HA.com/Licenses and as posted at the venue site. All lots are subject to: the consignor's right to bid thereon and consignor's option to receive advances on their consignments. Auctioneer will disclose to bidders, upon request, a list of lots subject to an advance, reserve, guarantee, or Auctioneer's financial interests of any kind. All Terms and Conditions of Sale are available at HA.com and in the printed catalog, including term #21 which states: Consignor, auctioneer's affiliates and, its employees may bid on their lots or other lots for their own account in accordance with the laws of New York and they may have information as to the lots not available to the public. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Terms and Conditions of Auction

Additional Terms & Conditions: COINS & CURRENCY

COINS and CURRENCY TERM A: Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-872-6467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (877-HERITAGE (437-4824)) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), P.O. Box 9458, Newport Beach, CA 92658, <http://www.pcgs.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Belleview Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency and PMG may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), P.O. Box 4711, Sarasota FL 34230; PCGS Currency, P.O. Box 10470, Peoria, IL 61612-0470. Third-party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM G: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS and CURRENCY TERM H: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM I: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM J: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM K: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM L: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM M: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, P.O. Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS and CURRENCY TERM N: Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

COINS and CURRENCY TERM O: Financing. Auctioneer offers various extended payment options to qualified pre-approved persons and companies. The options include Extended Payment Programs (EPP) Flexible Payment Program (FPP) and Dealer Terms. Each program has its specific terms and conditions and such terms and conditions are strictly enforced. Each program has to be executed by the purchaser. Auctioneer reserves the right to alter or deny credit and in such case these auction terms shall control.
